

TOP 10

REASONS WHY LEGACY PLM CUSTOMERS MOVE TO THE 3DEXPERIENCE® PLATFORM ON THE CLOUD

Your PLM system has served you well, but is it enough to support your growing business needs? To ensure efficient product development and maximum innovation, legacy PLM users are moving to the 3DEXPERIENCE platform. Here are the top ten reasons why:

1. ACHIEVE GREATER INNOVATION

Empower entirely new ways to innovate by virtually exploring and testing ideas, products and experiences before producing them.

2. ADOPT A UNIFIED PLATFORM

Access an integrated environment that brings together all aspects of the business in real-time to increase collaboration, improve execution and accelerate innovation.

3. COLLABORATE ACROSS THE VALUE NETWORK

Enable structured and social collaboration across the enterprise as well as with suppliers and customers around the globe.

4. SUPPORT MULTIDISCIPLINE ENGINEERING

Streamline product development process and speed time to market by bringing mechanical, electrical and software engineering teams together around a shared product definition.

5. LEVERAGE AN OPEN AND SCALABLE PLATFORM

Maintain the continuity of digital processes by seamlessly integrating ERP, CRM and SCM business systems and data with platform functionality.

6. CONNECT DESIGN ENVIRONMENTS

Bring MCAD and ECAD applications and data into an organized, data-driven environment that helps designers be more productive, validate experiences and deliver high quality products.

7. EXTEND ACCESS TO PRODUCT DATA

Enable all stakeholders to contribute to the innovation process by accessing, reviewing and contributing to product designs in real-time.

8. ACCELERATE BUSINESS TRANSFORMATION WITH VIRTUAL TWIN EXPERIENCES

Define, simulate, test and validate products and experiences to continuously make improvements and capitalize on knowledge and know-how.

9. CHOOSE SOFTWARE AS A SERVICE (SaaS) AS A DELIVERY MODEL

Deploy rapidly, scale flexibly and access platform capabilities via SaaS.

10. UTILIZE DATA SCIENCE AND ARTIFICIAL INTELLIGENCE (AI)

Reveal, measure and analyze data to deeply understand and improve product development processes and make better informed business decisions.

Your market, customers and competitors do not stand still. Move to the 3DEXPERIENCE platform today and deliver the technical and business innovation you need to grow your business advantage.
